Hall. This accordingly was done, students and faculties marched in procession to the Hall, the returned men in a body under Capt. Aubrey Beattie of the 26th; splendid music was provided by a student choir and addresses were given by Dr. Palmer and Dr. Borden while the list of sixty-nine dead was read by Professor Cohoon of the 4th Siege Battery. The addresses were of a very high order and we hope to publish one of them in a future issue.

D. W. BUCHANAN, AC., M. M.

The military medal was won by D. W. Buchanan, one of our returned men in the University, for coolness and determination in a patrol on the Russian front. He was gazetted as follows: "At Vistafja on March 3rd when the garrison was cut off from Column Headquarters by an enemy force, he with two other men volunteered to reconnoitre the enemy positions and succeeded in penetrating to within hearing distance of the enemy, securing valuable information as to their numbers and movements. He displayed great coolness and determination throughout the operation."

Buchanan was a Signaller, having gone overseas in 1917 in the 65th Battery and in England transferred to the 63rd Canadian Field Artillery and sent to the Archangel front. He had, previous to enlisting, been a student at the Academy and is now in the first year Engineering Course.

FOKKER AEROPLANE

The Militia Department has written Dr. Borden to the effect that Mount Allison is to receive a Fokker monoplane, in recognition of its services to the nation. It is a machine of the latest German type having a 150 horse power engine and capable of a speed of 125 miles per hour. It will be kept in the gymnasium suspended from the ceiling and properly protected against damage. The government will pay for transportation and will send an officer to supervise the setting up of the machine after it arrives.

EARLE SPICER, L. C.

Mr. Spicer has recently returned from England where he has been student and soldier for several years and has been giving a series of concerts in Nova Scotia and New Brunswick. He has a baritone voice of unusual quality and power and recently delighted a Sackville audience in a concert in Frewtett Hall. His voice has wonderfully developed since he left Mt. Allison in 1913. Since then he has studied in London under Bell, one of the foremost vocal teachers of Europe and according to those who are capable of judging has a great future before him as a singer.

MAJOR H. LEROY SHAW

Major Shaw is manager at Montreal of the life and accident departments of the Travellers Insurance Co. of Hartford, Conn. He went overseas with the 87th Battalion of which he was later the commander. He was manager for the Province of Quebec of the Imperial Life Insurance Co. He represents St. George's Ward in Montreal City Council, is prominently identified with the organization of the Rotary Clubs in Canada and during the Victory Loan campaign captained one of the most successful teams.

MOUNT ALLISON IN BERMUDA

In the middle of the North Atlantic Ocean, eight hundred miles from the nearest point of land, lie the enchanted Isles of the Bermudas. This little group of islands, scarcely more than twenty-four miles long and containing an area of about nineteen square miles, is one of Britain's oldest colonies. But their value is not proportionate to their size. The Bermudas are the home of valiant men and women who have contributed an appreciable influence to the currents of thought in the Empire to which they belong. There are, moreover, today no stranger citizens and men and women of affairs in this little colony than those who own Mount Allison as their Alma Mater.

Bermuda is today the richer for its men and women who have received their education in our Sackville Institutions. These former students of ours may be divided into two classes —those of alien origin but now residing in the enchanted isles, and those of native birth. To the former class belong some of the leaders in the religious, social and intellectual life of the colony today. Perhaps the dean of Mount Allison men, who are not native Bermudians, today is the Rev. B. J. Halle, B. A. '79, M. A. '83, and B. D. '92. Mr. Halle has been pastor of the largest Methodist Churches of the colony and during the past summer he was honored by an invitation to preside over the St. Andrew's Presbyterian Church of Hamilton, in the absence of the regular pastor. In all his work he has been crowned with abundant success. Mr. Halle has now become a permanent resident of the colony and he is contributing much to the uplift of religious life and thought throughout the island. His daughter, Miss Elizabeth Halle, B. A. '08, is at present residing with her father.

Another strong Mt. Allison man is the present pastor of Wesley Church, Hamilton, the Rev. Norman Guy, B. A. '12, M. A. '13. Mr. Guy is exerting a powerful influence throughout the colony in the campaign for local option.

Other Mt. Allison men who are successfully presiding over the Methodist Churches in the different parishes of the colony are the Revs. C. B. Stonden, J. H. Freestone, and H. S. Bland, all young men whose influence is already being felt in all the phases of colonial life.
Mount Allison is proud of the war record of her Bermudian sons. In addition to Lieut. Motyer, we may mention Roy Paschall, Academy; Wyman Doe, B. A., '09; Willard Skinner, Academy, who holds the record for the fastest photographs taken from an aeroplane over the German lines; Serjt. Graham Boyle, Academy, who was a mechanic in the American Air Forces, as well as several others, all of whom did good service to their King or the Allies.

All of these men have returned safe, Lieut. Motyer and are today engaged in various professions in the different parishes of their native Colony.

Mount Allison is proud of her Bermudian alumni and her alumnae are proud of Mount Allison. There is today a strong force at work for the enlargement of Mount Allison’s influence throughout the Colony, and already a new generation of students is beginning to look toward Sackville with eager eyes. All this is but a presage of the sturdy lives of sons and daughters who will take up the work in the homeland which has been done so well by Mount Allison men and women in the years gone by.

(To be continued)

H. C. METHERINGTON, ’15

After graduation with Honors in Chemistry, Mr. Metherington spent some months as chemist with the Nova Scotia Steel and Coal Co., of New Glasgow, N. S. From there he went to a chemical position in Shawinigan Falls, Quebec, and from there to Newark, New Jersey, as chemist in a large steel company. When the United States entered the war he enlisted and was transferred to the Chemical Warfare Service with which unit he went to France, and was there engaged in research on war problems in Chemistry. He returned to Canada during the past summer and later accepted a position in Washington, D. C., as a research chemist in the government service, studying an important problem in the fixation of atmospheric nitrogen.

WILLIAM G. GUY, B. SC., ’19

Mt. A. Graduate is appointed a Rhodes Scholar

Word has just been received of the appointment of Mr. Guy, as Rhodes Scholar from Newfoundland. He came to Mount Allison with a Senior Associate from Newfoundland, and the Jubilee Scholarship of $1,200.00, given to the student making the highest standing in matriculation, a scholarship competed for by students from the whole Island. Mr. Guy entered the second year and graduated in 1919 with the Bachelor of Science Degree. His course had been a particularly brilliant one. He was the winner of the prizes offered for highest standing in Chemistry I and in Calculus and graduated with highest honors in both Physics and Chemistry. In his senior year he won the Alumni Scholarship for the highest standing in his class throughout the course. He has returned to the University for the present year as instructor in Physics.

At Oxford he will make physical chemistry his special field of study.

Mr. Guy in a large degree fulfills the qualifications for the Rhodes Scholarship. In addition to his high scholarship he was a member of the intercollegiate debating team, which last year won from the University of New Brunswick, has taken an active part in college athletics, and has shown the qualities of leadership which the Rhodes scholar should have.

NEW PROFESSOR OF ENGINEERING

Frank L. West, ’12

The position of professor in the engineering department made vacant by the resignation of Professor Crowell, has been filled by the appointment of Frank L. West, a graduate in the class of 1912.

Mr. West prepared for college at Gagetown (N. B.) and entered Mount Allison in 1908 with a provincial matriculation certificate. He graduated B. A. in 1912, with excellent standing in his work. The following year he took honors in physics, as well as the engineering subjects required for entering the third year of the engineering course at McGill. The next year he spent with the Canadian Northern Railway, where he obtained considerable practical experience completing also the work for his M. A. degree. In the fall of 1914 he entered McGill University, graduating in 1916 with a splendid record in his college work. During his course at McGill he was a member of the officers’ training corps, in which he received his lieutenant’s and captain’s certificate. During his senior year, in addition to his work in engineering he was a tutor in physics. After graduation at McGill he worked for some time with the department of mines on the investigation of peat bogs and later was ap-
pointed to a position with the Imperial Munitions Board as testing engineer. He later joined the first Quebec regiment as a subaltern from which he transferred to the Canadian Engineers, finally going overseas with a draft of 200 Engineers. He was with the Canadian Expeditionary Force until discharged in August of last year with the rank of captain. Since then he has been with the Canadian Government Railways on maintenance and construction.

HARRY E. BATES, ENG., '06

Mr. Bates has recently been appointed to a responsible position with the Laurentide Pulp and Paper Company at Grand Mere, Quebec. After leaving Mount Allison he went to McGill to complete his course in Engineering, graduating with a very high standing in his work. He was engaged for some years in various responsible positions, one of which was in connection with the building of the Quebec bridge. During the war he served in the artillery, going overseas with the 65th Battery.

ELLEN C. B. HEMMEN, '19

Miss Hemmeeen has been appointed to the staff of Bradford Academy, Vermont, U. S. A., as teacher of French and English. Miss Hemmeeen was an honor student in English at Mount Allison and made a fine record in her college work.

CLINTON TREMAINE PURDY, M. D.

Dr. Purdy, for many years a prominent citizen of Moncton, died on January 12th at the age of sixty. He was born in Amherst and lived there until after the completion of his work at Mount Allison. After obtaining his medical degree at New York University, he began the practice of his profession in Moncton. He was one of the best known physicians of Westmorland County and had a wide circle of friends. He always took a deep interest in civic affairs, having served as Alderman and Mayor and as trustee of the schools of Moncton.

REV. S. W. HANN, '12

Mr. Hann received the degree of B. D. at the Convocation of Victoria College, Toronto, in May last. He received his certificate in Theology from Mount Allison in 1911, his B. A. Degree in 1912 and M. A. in 1914. For the year 1918-19 he was appointed to the Sandwich Methodist Church in the Windsor District but went on military duty as a Chaplain at Quebec, soon after receiving the appointment. He has now returned to circuit work.

RAYMOND W. DILL

Mr. Dill was recently married to Miss Elizabeth Alward, of Gaagetown, N. B. He enlisted in 1915 in the 112th Battalion with which he went overseas. He had a remarkable recovery in England from an attack of spinal meningitis and after some time in hospital and in further training went to France with the 25th Battalion with which he served until severely wounded. He was returned to Canada as unfit for active service and appointed to a position as Information officer with the Department of Soldiers Civil Re-establishment at Halifax, where he is at present. Mrs. Dill held an important position in the American Army Office in Halifax.

HUGH McALPINE

In September of last year Mr. McAlpine returned to Canada after a long experience in prison camps in Germany. He was captured at the battle of Langemarck and was held a prisoner until after the armistice when he returned to England. While on his way to Canada he contracted diphtheria on board ship and for some weeks after landing was in hospital in Montreal.

LOUIS A. BUCKLEY, '12

For some years Mr. Buckley has been the well-known Secretary of Maritime Boys’ Work, a position which he has filled with marked success. His long experience in that work, combined with his natural adaptability, make him particularly fitted for work among boys. At a Summer School held in Ontario during the past summer Mr. Buckley had the misfortune, in a game of baseball, to collide with another player with the result that he had a rib so misplaced that it penetrated his lung. He is now much improved and able to be about as usual. His headquarters are in Halifax.

LIEUT. COL. JOHN DeWOLF CHIPMAN

Colonel Chipman died recently in Toronto. For some years while resident in New Brunswick he was a member of the Board of Regents of Mount Allison. Mr. Chipman, while living in St. Stephen, was engaged in ship-building and mercantile life. In his younger days he was a member of the Provincial Assembly and for several terms Mayor of his native town. After moving to Toronto he became interested in insurance and mining, and became a director of several large insurance and business concerns. He married a daughter of Sir Leonard Tilley and their three children, Major Arthur Chipman, of Montreal, Capt. John E. Chipman and Mrs. Royden Thompson, have all been students at Mount Allison.

HARRY J. ROWLEY, '16, M. A., '17

After graduation Mr. Rowley spent a year teaching at the Academy and then went to Queen’s University for work in Chemical Engineering. During his undergraduate course he had specialized in Chemistry and received an honor certificate in that subject on graduation. He is now in his final year at Queens. He had spent two summers in practical work, one of them being in war work in the explosive plant at Trenton, Ontario. After graduation Mr. Rowley expects to take a year in graduate work at the Massachusetts Institute of Technology.

AIDA B. McANN, '16

Miss McAnn was married in Moncton on Jan. 21st to Capt. Douglas V. White, M. C., of St. John, N. B. Ralph St. C. Hayes, '16 supported the groom and Miss Emily Oulton and Miss Mildred Smith, piano and violin, former students of the Ladies’ College, played the wedding march. The groom is
a former student of the University of New Brunswick. The bride is one of the most brilliant of the younger graduates of Mount Allison having been winner of the Alumni Scholarship and valedictorian of her class. During the Library campaign last spring Miss McCann was of the greatest assistance, spending two months in Sackville during which her whole time was devoted to the interest of the campaign.

STUDENT VOLUNTEER CONVENTION

During the Christmas holidays a great Student Volunteer Convention was held at Des Moines, Iowa attended by nearly eight thousand students from all over the world. Mount Allison sent a comparatively large contingent consisting of three men and three young women. The delegates were Miss Constance Young, '20, Miss Helen Smith, '20, Miss Ruth Wyse, L. C, Arthur G. Pents, '20, R. C. White '21, Chester N. Brown, '21. On a recent Sunday evening these delegates gave an interesting report of their experiences, in the Methodist Church. The inspiration they received at Des Moines should have through them, a lasting effect upon the student body.

KATHLEEN A. ELDERKIN, L. C.

Miss Elderkin was married on Jan. 21st to Dr. Hugh M. Young of Moosejaw, Sask. They will reside in Moosejaw after Dr. Young has completed a graduate course in New York. Miss Elderkin is one of a family of four, all of whom have attended Mount Allison. Her brother Vernon C. Elderkin, Eng., '09, was killed in France in the early days of the war. Miss Marie Elderkin is a graduate of the Ladies' College, in piano and the youngest of the family Miss Evelyn Elderkin is now a student at the Ladies' College.

UNIVERSITY RINK

The rink of which we wrote in our last issue is nearing completion. The unusually cold weather has greatly interfered with its completion, and a serious accident, in which eight of the large tresses for supporting the roof were broken, was a serious setback as well. At this writing, however, Feb. 2nd, the ice has been in use for two weeks and most of the work has been completed. The roof has been covered with a tar roofing but the sides will be left roughly boarded for the winter.

The skating surface, surrounded by boards for the height of six feet, is a fine sheet of ice one hundred and eighty feet long and seventy feet wide, making it one of the largest sheets of ice in the Maritime Provinces. A wide promenade surrounds the ice, which is large enough to accommodate a thousand people comfortably at a hockey match. If eventually it is necessary, accommodation for as many more will be provided in a raised stand over the promenade. There are two large waiting rooms and two other rooms, one of which is an office and the other a check room. Provision will be made for a workshop in which repairs may be made, skates sharpened, etc., by someone in charge. Above the waiting rooms are two large rooms, one of which will be a bandroom and the other a kitchen, to provide accommodation for the large parties often held in Sackville which require a building of unusual size.

The rink, while an expensive one to build during this time of high prices, is a necessity to the Institution. During the winter there is very little opportunity for students to get exercise other than by skating. The curling rink which was packed during war-time by students alone was altogether too small to accommodate the increased numbers of today. Hence the Board of Regents, since private enterprise seemed unlikely to build such a rink, decided to do so itself.

DR. J. C. WEBSTER '82

Dr. Webster, '82, who has been on the Medical Faculty of the University of Chicago, has retired from active medical work. He will spend the summer at his fine residence in Shediac, N. B. This winter he is spending in Bermuda.

MRS. W. W. BEER

Mrs. Beer, who worked faithfully in many war organizations in Toronto "for the duration," is taking the holiday which she has earned on a year's trip. At present she is spending a few months in Los Angeles, California.

CLEMENT C. AVARD '98

C. C. Avard has been for a number of years head of the Tribune Company in Sackville. He has taken a strong interest in all matters pertaining to the town. He was for some years President of the Board of Trade and has for the last year been an Alderman. He has now been elected Mayor by acclamation to succeed Col. F. B. Black, '87.

DR. GEORGE H. TURNER, '99

A recent visitor to Mount Allison was Dr. George Turner of Fort Saskatchewan, Alberta. After graduating from Mt. Allison he took a medical course at McGill and has practised in the West for a number of years. He has now retired from medical practice for the life of a farmer, which he finds less strenuous and exciting. His wife is also a former Mt. Allison student and both are good representatives and friends of their Alma Mater.

BOYD SNOW, '16'19

On Sept. 15th Mr. Snow and Miss Edith Boutilier, L. C, '16'19, of Halifax, were married at the home of the bride's parents in Halifax. They are now residing in Watertown, Mass., Mr. Snow being engaged in business in Boston.

J. H. FITCH '19

Mr. Fitch was married on July 7th, 1919, to Miss Leona McMillan, daughter of J. W. McMillan of Sackville. Mr. Fitch had a fine record at Mount Allison and is now teaching in the County Academy in Truro, N. S.
W. S. DOANE, ’18

Mr. Doane was married during the summer to Miss Vera Oberholtzer of Sonderton Pa. Mr. Doane and Mr. Fitch were classmates and friends at Mount Allison and both now teach in the County Academy, Truro.

ELI R. ANTHONY, ’19

In July 1919, Mr. Anthony was married to Miss Nellie Lorenzen of Garish, Fortune Bay, Nfld. Mr. Anthony is now preaching at Glovertown, Bonavista District, Nfld.

MR SYDNEY D. SCOTT, ’09-’10

The Gold Stripe, a magazine published in Vancouver in the interest of men wounded in the war, contains a long and interesting article by Sydney Scott on La Libre Belgique—clandestine. This is the patriotic paper which, to the chagrin of the Germans, was published and distributed among the Belgians during the German occupation of the country. It ran, according to Mr. Scott’s article, to 171 numbers. After the Armistice, Mr. Scott was stationed in the neighborhood of Brussels and made the acquaintance of a number of the people who were mainly interested in keeping the paper going. M. Jourdain, the founder, he didn’t see, who old and wearily, died just before the end of the war, but with his widow who had shared her husband’s activities and dangers, he had several interviews. He also had the privilege of examining the complete file of the paper and was presented with one copy as a souvenir. Facsimile of the outside page of this number is given in the magazine. From it we see that the paper was announced as the “Bulletin of patriotic propaganda to appear regularly irregular.” The price of each number was “elastic, from zero to infinity,” and those who resold it were asked not to pass this limit. The telegraphic address was humorously given as the “Kommandantur, Brussels.” Brand Whitlock in his book on Belgium refers to this paper and the interest it created. It found its way occasionally into his letter-box and was said always to be in the mail of von Bisseg, the Governor. He tried in every way to find out who was responsible for it and arrests were made, but the work went on. No one then knew just who printed or edited the little paper. Mr. Scott’s article throws light on these former secrets and gives interesting details of the experiences of the patriots who defied German authority and oppression.

Mount Allison Record

PUBLISHED MONTHLY BY THE
MOUNT ALLISON ALUMNI AND ALUMNAE SOCIETIES
SUBSCRIPTION PRICE 25 CENTS PER YEAR

VOL. IV. SACKVILLE, N. B., JAN. & FEB., 1920 NO. 4

With this issue we are adding a large number of names of Mount Allison men and women to the mailing list of The Record. Our aim has always been to reach as large a number of old students as possible, and at the same time keep the subscription price at a low figure, in the hope that the subscriptions received would supplement the gifts from the Alumni and Alumnae Societies to an extent sufficient to meet the expenses. The experience of the past two years seems to suggest that this hope will be realized. We are hopeful that those who receive the Record for the first time will find something of interest in it as the months go by and will give it their financial support. One dollar will pay a subscription for four years.

We are printing in this issue a statement by Dr. Borden on Mount Allison and the Forward Movement. The financial objective having already been reached it is assured that Mount Allison will benefit greatly by the apportionment of the funds. If, as seems probable, the objective be largely over subscribed we have every reason to hope that a fair portion of the excess will come to Mount Allison as well.

We would draw the attention of our readers to the class letter of Professor R. C. Archibald, of Brown University, Providence R. I., president of the
