MISS DOROTHY HUNTEN, L. C.

Miss Hunten, who is a daughter of Prof. Hunten, has been appointed to a very responsible position as dietitian of the General Public Hospital in St. John. After taking her course at Mt. Allison, Miss Hunten studied for a year at Toronto University and later was with the D. S. C. R. in Fredericton and at the River Glade Sanatorium as dietitian. Her sister Miss Edith Hunten some months ago was appointed to an excellent position in St. Louis, Mo., in the Department of Soldiers Re-establishment which is in charge of Miss Margaret Harris, who like herself is a graduate of the Arts and Crafts department of the Ladies’ College.

H. S. POWELL ’75, D. C. L., ’14

Mr. Powell recently gave an interesting lecture in Beethoven Hall on Ireland, under the auspices of the Oceanic-Club of Sackville. The audience was a large one and listened to a very interesting historical address on a subject of which Mr. Powell has made a deep study. A large number of students were present at the lecture.

MRS ORVILLE LACY (LAURA WIL-SON, L. C.)

A daughter, Lois Elizabeth was born on June 20th, 1920, at Stockton, California to Mr. and Mrs. Orville Lacy. Mrs. Lacy was a former student of the Ladies’ College.

ARTHUR G. BAXTER, ENG. ’16

Mr. Baxter was married on Jan. 12th in Quebec to Miss Lilian I. McGee. Miss McGee is a graduate of the Acadia Seminary in 1913. Mr. Baxter is now head of the drafting department of the Canadian National Shops in Quebec.

KENNETH DAWSON, ENG. ’15, B. Sc.

(N. S. TECH.)

Mr. Dawson, who is with the Nova Scotia Tramways Company, Halifax, in charge of the gas plant, has recently delivered a lecture on “Black Diamonds—the wonders packed in a lump of coal” before the students and Faculty of Dalhousie and before other audiences.

KATHLEEN REEVE SMITH, L. C.

Miss Smith, who for a time was a teacher of piano at the Ladies’ College, went to Japan about three years ago to teach in the Methodist College at Kobe. Recently she was married to Mr. Arthur Gorman of Seoul, Korea, who is manager there for the Standard Oil Company. After the ceremony a reception was held at the home of Rev. Howard Outerbridge ’97. Mr. and Mrs. Gorman will reside in Seoul.

Mount Allison Record

PUBLISHED MONTHLY BY THE
MOUNT ALLISON ALUMNI AND ALUMNAE SOCIETIES
SUBSCRIPTION PRICE 25 CENTS PER YEAR

VOL. V.

SACKVILLE, N. B., MAY, 1921

No. 5

This issue of the Record will be the last for the current year. With this issue are enclosed remittance blanks for the use of those whose subscriptions have not been paid. It is hoped that those who have been receiving the Record for the first time will have found it something of interest to them and will be willing to contribute the small subscription fee of twenty-five cents per year. As has previously been said in these pages the Alumni and Alumnae Societies contribute a small sum toward the maintenance of the Record, but with the greatly increased mailing list this sum is far from sufficient to meet the expenses of publication. One dollar will pay for four years. If each one who received it will do a part the Record will reach many Mount Allison people and do something, we hope, to forward the interests of the Institutions and to keep old students in touch with one another.

Another college year has come and gone. It has been a good year for all three of the Institutions. The attendance at the Ladies College was the largest in its history, while that of the Academy was slightly smaller than that of last year. The attendance at the University was slightly larger.

The Ladies College is unfortunate in the resignation of a very considerable number of the members of the staff of teachers, but fortunate in securing a number of former teachers of experience who are familiar with the customs, ideals and routine of the school. During the year the stone addition to the main building was completed connecting it with Hart Hall and is similar to it in style of architecture. When the main wooden building is replaced according to plan the new portion will also be like that already built. Hart Hall and the addition are dignified and beautiful in style. Within the addition provides accommodation for a considerable number of students and has a very large and beautiful Common Room furnished by the Alumnae Society at considerable expense. In the basement is a small swimming tank.

THE ACADEMY

The Academy has been full to over flow during the year, a few of the students having been accommodated in the University Residence. It is proposed in the near future to provide further accommodation by addi-
ing a fourth floor to the Commercial Building which has been moved beside the main building and connected directly with it. The graduating class this year has been the largest in its history, twenty nine receiving certificates admitting them to the University. Some of these will at once take up professional work or study, but about twenty will enter the University in September.

Scholarships and prizes were awarded as follows:

Alumni Scholarship in classics, Claire Wright, Bedefque, P. E. I.
Alumni Scholarship in Mathematics, Cyril Freeze, Doaktown, N. B.

Prizes for $15 and $10 for highest general standing in Junior classes were won by Clarence Crampton of Battle Creek, Michigan, and Myers Zwerling of Halifax. Prize of $20 for highest standing in English and History was won by Hugh Lewis, Moncton. Nelson Shield for highest average in commercial was won by Raymond Dixon, Sackville, N. B.

THE UNIVERSITY

The first department of the University to close was that of Theology. This department for some years has closed a month before the other departments making its year equivalent in length to those of other colleges. The Theological Convocation was held on April 11th in the Methodist Church. Rev. John W. Alkens, a former Mount Allison man now pastor of the Dominion Church, Ottawa, was the speaker of the occasion and gave an eloquent and interesting address. Six students received certificates of having completed the course, four of them were from the Nova Scotia Conference and one from the Newfoundland Conference. They are Norman Coll, B. A., Charles W. Kierstead, Arthur G. Pentz, B. A., George E. Raich, B. A., Reginald L. Roach; and Cator Winar. The first five are men who returned to complete their

As You Like It," which was highly praised by those who heard it. The Physical Drill was interrupted by rain to the displeasure of a large crowd gathered to see it. With this exception, the weather throughout the whole time of Closing was as good as could be desired. There were two graduates in M. L. A.; one in Oratory; nine in Household Science; four in Piano; two in Organ; one in Violin; one in Singing. In the Department of Fine Arts there were two graduates in Drawing and one in Crafts. One obtained a Teachers' Certificate in piano and one in violin, making a total of twenty-six.

THE LADIES' COLLEGE

The Closing Exercises were preceded by the usual graduating recitals in the latter part of April and early May. These were in general of a high order and rather more ambitious than usual. The attendance at these recitals, too, when held in Fawcett Hall was larger than usual. Instead of the usual play by University Students given at closing the pupils of the Oratory department under Miss Ida M. Leslie gave a presentation of Shakespeare's
courses and having seen service in the Army.

On Sunday evening of the closing week the Rev. R. Newton Powell, of Toronto, preached the Baccalaureate sermon in Fawcett Hall to an audience which taxed the capacity of the hall to its utmost. On Tuesday evening Mr. Powell also spoke at University Convocation. Both of his addresses were of great interest and splendidly received. The following received degrees or certificates:

B. A.

Brown, Chester Nelson, St. John.
Brown, Russell Newton, Lower Brighten, Carleton Co.
Chapman, Ray Parkin, Bale Verta, N. B.
Cram, Lilian Alberta, Green's Harbor, Nfld.
Dargie, Frances Marguerite, Annapolis Royal.
Eaton, Kathleen Louise, Canard, N. S.
Ferguson, Aubrey Stafford, Moncton.
Fraser, Stanley Lawson, Fraserville, N. B.
Hart, Edith Rebecca, Landis, Sask.
Hart, Hazel Annette, Landis, Sask.
Huntton, Thomas Frederick, Saskville, N. B.
McQueen, Muriel Florence, Elizabeth, Shediac, N. B.
Mills, Henry Christopher, Sydney.
Moore, Jennie Chaneay, St. John's, Nfld.
Moore, Mabel Sylvia, St. John's, Nfld.
Moher, Kathleen Marion, Kentville.
Murray, Margaret Elizabeth, St. John.

Peacock, Mary Amelia, Bayfield, N. B.
Simms, Hilda Gertrude, Plymouth.
Yarmouth Co.
Smith, Frances Margaret, St. John.
Smith, Helen Mildred, St. John.
Turner, Jean Mabel, Sydney Mines.
B. Sc.
Button, John Wesley, New Melbourne, Nfld.
Stick, Edward Moyle, St. John's, Nfld.

B. D.

Mack, Charles Malcolm (B. A. '05), Amherst.

M. A.

Anderson, George Penwick (B. A. '15), Moose Jaw, Sask.
Baines, Ernest (B. A. '11), Sydney.
Coll, Norman (B. A. '11), Sydney Mines.
Fentz, Arthur Gordon (B. A. '20), Shelburne.
Rackham, George Edward (B. A. '20), Amherst.
Treichel, Samuel Burton (B. A. '11), Calgary.
Weeks, Ernest Stephen (B. A. '04, B. D. '07), Murray Harbor, P. E. I.

M. Sc.

Bacon, George Sterling (B. Sc. '20), Central Greenwich, N. B.
Certificates in Applied Science
Borden, Douglas Clare, Pugwash.
Campbell, George Gilmour, North Sydney.
Churchill, Wilfred Laurier, Short Beach, N. S.
Davis, Walton Trueman, Oxford, N. S.
Dawson, John Chesley, Halifax.
Duff, David Alexander, Harbour Grace, Nfld.
Elliott, Paul Morton, Berwick.
Furness, George Winston, Vernon, P. E. I.
Hoar, Roy Groves, Moncton.
Humphrey, Harold William, Moncton.
Huxton, Thomas Frederick, Sackville.
Parkins, Cyril Lloyd, St. John's, Nfld.
Pickett, Thomas Dwight, Sackville.
Prince, Francis Benjamin, Lawrence town, N. S.
Purdy, Ronald Keith, Bear River.
Rehn, Ronald James, Sackville.
Starratt, William Blair, Dorchester.
Steeves, Beverley Hall, Moncton.
Wilson, Cyril Thomas Ranger, Moncton.
Woods, John Stewart, St. John's, Nfld.
Wyse, James Wilson, Moncton.
Wyatt, Kenneth Sapwell, Wilnott.

The graduating class in Arts was the largest in the history of the College and five more will receive their degrees and be recorded with this class when they have written one examination.

The Engineering class numbering twenty two also is by far the largest class in that department. Eleven of the men in the class are returned soldiers.

The address of Dr. Borden to the class in Arts follows:

"My Dear Young Friends,
You have come to the parting of the ways and, according to immortal custom, the President is expected to give you a few words of gratuitous and probably unappreciated advice. Perhaps you are tempted to argue with the great Chatham in his reply to Walpole "That years do not always bring wisdom and grace." I would however, venture to hope that with your four years of study at Mt. Allison you have gone so far from the sophomores' satisfaction so well expressed by Tennyson's Northern Farmer when he said: "I reckon I 'am not so much to learn'" that you would be willing to accept a word of advice from an old man that has the merit of being well intended.

There are just two things, however, I will venture to say to you. We are reminded by universal profiteering on the one side and world-wide labor unrest on the other that there never was a time in the world's history when men were so eager to get something for nothing as they are today. This condition of things is usually regarded by economists as one of the reactions of the Great War and yet, I am satisfied that these movements have at the back of them a revolutionary urge that goes deeper than philosophers recognize. One of the primitive laws of both nature and revelation is found in the words, "If a man work not neither shall he eat," and yet the tendency is ever to covet another man's goods and to discover some short cut to obtain a competence without work. In this competition the extremists of both classes are equally to blame. Men are forever forgetting the admonition of the Northern Farmer when he says, "Work mun 'agon to the gittin' whenever money was got."

If you have learned the value of honest toil in your four years' work at Mt. Allison, you have in that acquired one of the most valuable assets of your college life. The diplomas you have just received, representing as they do laborious days and midnight oil, you will find in later life are not worth as much as the habits of study and mental discipline you may have acquired. The work itself, you will discover, is better worth than what you work to get.

The other thing I want to say is, in your whole mental outlook upon life do not fail to place proper emphasis upon moral and spiritual values. Nothing is really great and strong and enduring that ignores the higher qualities of heart and soul. Germany developed, during the forty years of her preparation for the Great War, the most perfect fighting machine the world has ever seen. If any nation under Heaven was ever justified in depending upon her material strength, Germany was. The battles that like a steam roller crushed Belgium and Northern France and that twice were near enough to drop shells into Paris, were repeatedly driven back by forces that appeared to many to be almost superhuman. History, I believe, will realize the fact that Germany's defeat was essentially a moral defeat rather than a physical collapse. She classed herself with the morally bankrupt when she declared her treaties to be mere scraps of paper. Her organized frightfulness and unlimited cruelties made her an outlaw against humanity, until twenty nations of the world united to curb her in her mad career.

Today the abject spiritual poverty revealed by her bluster over the just reparations demanded and her abject yielitings to the inevitable furnish only additional evidence of her spiritual rather than her material poverty. Today, Edith Cavell, the trained nurse, dead and crumpled to dust, is a more potent and influential factor in the world's affairs than the living Kaiser, before the rattling of whose sabres the nations of the world had so long trembled. Belgium, a little island off the coast of Germany, fortified at an expense of $175,000,000 of German money, hardly fared a shot during the Great War and is now seeing dismantled and blown to pieces. Soon the marauding tides of the North Sea will assume its encroachment until the very soil of the little island shall have crumbled into the neighbouring oceans. Such must always be the fate of all preparedness which forgets the soul of man and fails to recognize the strength and stability of moral values.

Let me urge upon you, my dear young friends, not to make the fatal mistake of depending upon material good to throw the neglect of the imperatives that create spiritual values and make men and women rather than machines. Remember with Kipling that the glory and prowess of Germany, the far-flying battle line of Old England, the material wealth and abounding prosperity of this continent will become one with the mouldering ruins of Ninveh and Tyre if we neglect God's ancient sacrifice, a humble and contrite heart.

My last word to you is "Get work, get work," but above all "Keep thy
heart with all diligence for out of it are the issues of life."
You carry with you, my dear young friends the heartiest sympathy and united good will of your predecessors who have followed you through your undergraduate years with such disinterested faithfulness."

MOUNT ALLISON MAN AT KINGS LAW SCHOOL

Cecil R. Mercreau received the LL. B. degree from the Kings Law School in May. He is a returned soldier being discharged with the rank of Major. He was very severely wounded at Ypres. He spent a year at Mount Allison before enlisting in August, 1914. Other Mount Allison men at the Law School are Russell Cahill, Sidney Hunton and Stuart Murray.

H. P. ROBINSON, Ac

Mr. Robinson was married June 1st, 1921, to Miss Pearl Fox, of Winnipeg. Mrs. Robinson was a nurse overseas. Mr. Robinson is managing director of the New Brunswick Telephone Co., and an active Mount Allison man. During the campaign Mr. Robinson was chairman of one of the Zones and gave splendid service.

DR. FRED J. WHITE

Dr. White, who was one of the best known physicians of Moncton, died suddenly on April 19th. Dr. White was born at Greenpond, N.B., in 1863. He was a student at Mount Allison and from here went to McGill, where he was graduated in 1886. The same year he became government surgeon in Labrador giving great aid to the people of that bleak coast ministered to by Dr. Wilfred Gresnell and his staff. Dr. White while at McGill enlisted in the Medical Corps during the Riel rebellion and was given a medal and clasp for bravery under fire. He married Miss Ella Webster, sister of Dr. J. Clarence Webster, '82. About thirty years ago he went to Moncton to practice. In 1907 and 1908 he was mayor of the city and was always prominent in civic and public affairs. For many years he has been interested in Newfoundland students at Mount Allison and was a real friend of the Oldest Colony Club here.

LAWRENCE BELL

Mr. Bell spent two years at Mount Allison and is now a student at the American School of Osteopathy.

ROY TOWER, Ac.

A bronze tablet has been placed in the Royal Bank at Blackville in honor of Roy Tower who gave his life in the war. He was a member of the staff of the bank on his enlistment. He was a member of the Mounted Rifles and was killed in July, 1916.

MOUNT ALLISON MEN AT HARVARD

Stanley Curtis and G. P. Smith, who enlisted from Mount Allison during the war on their return from overseas spent one year in medicine at Dalhousie University and during the present year are studying medicine at Harvard. Both are reported to be doing good work.

Lorne Lea, B. A., '19, is an Austin Teaching fellow in the graduate school devoting half of his time to teaching and doing work in chemistry for an advanced degree as well.

William West, B. A., '20, is a student in the Law School.

This group will be augmented by Fraser Munro, B. A., '15, (Toronto), Wm. Line, B. Sc., '21, E. Moyle Stick, B. Sc., '21, as already stated, and possibly by Russell Brown, B. A., '21, who will study medicine. This will make a large group for a college of the size of Mount Allison—to send into graduate work at one University.

PERSONALIA

Professor Line and Tweedle are spending the summer in England. Both will represent the University at the Conference of Universities of the Empire. Prof. Line will resume studies at Mansfield and Ruskin Colleges in Oxford.

Sydney Huntin, ex '19, who for the past two years has been a student in the St. John Law School, has accepted a position in the office of the Hon. J. D. M. Baxter, St. John.

Rev. Alfred Rogers, B. A., '97 will represent the Nova Scotia Conference at the Ecumenical Conference of the Methodist Church in London, in September. Dr. George Steel, D. D., 16 will also represent the New Brunswick Conference at the same gathering. Dr. D. W. Johnson, B. A., '73, M. A., '85, D. D., '07, will also attend as a delegate at last of the general conference.

MOUNT ALLISON MEN IN SCHOOL WORK

George Bacon, B. Sc., '20 M. Sc., '21, has been elected teacher of Science in the Winnipeg High School, for the year 1921—22. During the past year Mr. Bacon has been instructor in Physics in the University.

Harry C. Mills, B. A., '21 has been elected an instructor in the Sydney Academy for the ensuing year. Guy Cameron, B. A., has already been on the staff of this school for several years.

NORMAN T. AVARD, '03

Mr. Avard, who for several years has been Chief Accountant of the Maritime Coal, Railway and Power Co. at Joggins, N. S., has been promoted to the position of Assistant Manager with the control of the Sales and Purchasing department. Mr. Avard is Secretary of the Board of Regents.

WARREN J. WINDSOR, '12

Mr. Windsor was married in August last to Miss May A. Stuart, of Napeville, Quebec. Mr. Windsor made a visit to Mount Allison a short time ago. He is manager of a company doing an extensive canning business, having seven factories in various parts of New Brunswick and Quebec.
A MOUNT ALLISON MAN IN TORONTO UNIVERSITY

Winthrop Bell, B. A., '94, M. A., Harvard, Ph. D., Göttingen, has been appointed Professor of Philosophy in Toronto University.

Thomas Huntington, B. A., '21, son of Prof. Huntington, has received a scholarship in Mathematics in Yale University. He will take up postgraduate work next fall.

Moyle Stick, B. Sc., '21 and Wm. Line, B. Sc., '21, will pursue postgraduate courses in Chemistry at Harvard next year. Both are returned men and both holders of scholarships from the Imperial government.

W. R. Shanklin, B. A., who has spent the last year in postgraduate work in the University, will pursue courses in Mathematics in Columbia University during the coming summer session.

Thomas Pickard, Eng., '21, will enter the University of N. B. in the department of Forestry next fall. During the summer, Mr. Pickard is engaged in a Forestry Survey for the Provincial government.

MOUNT ALLISON MEN AT OTHER UNIVERSITIES

Rev. W. Fraser Munro, B. A., '18, M. A., '18, received the degree of B. D. at the last Convocation of Victoria College. Mr. Munro was awarded the Gold Medal for the Highest Standing in the work of the year and a prize of Books for excellence in the Department of New Testament studies. Mr. Munro intends to enter Harvard University in the Fall for further study.

Lorne Lea, B. A., '19, M. A., '20, has been pursuing postgraduate work in Chemistry at Harvard during the past year. Mr. Lea has been the holder of an Austin Fellowship.

Fred Winters, B. A., '20, has been pursuing postgraduate work in Mathematics at Yale, during the past year. He has also held a Teaching Fellowship.

Roy Crossman, B. A., 1919, who has been Lecturer in Biology in the University for the past two years, has resigned his position and will enter upon his postgraduate work in Chicago University in the near future.

A REMARKABLE WAR RECORD

Willard Skinner of Hamilton, Bermuda, a former Academy student has had a remarkable war record. He joined the Royal Scots in October, 1914. After being with them eight months, he received a commission in the Bedfordshire Regiment. He was later an Instructor in music at the University of London, and in service in France for 15 months. Mr. Skinner holds the record for the most rapid photographs taken over the German lines. He was brought down four times without a scratch.

The Rev. Alfred Lund, died very suddenly recently. He was a former theological student of the University and was well known in the Nova Scotia Conference.

Mount Allison Record

PUBLISHED MONTHLY BY THE
MOUNT ALLISON ALUMNI AND ALUMNAE SOCIETIES
SUBSCRIPTION PRICE 25 CENTS PER YEAR

VOL. VI. SACKVILLE, N.B. NOVEMBER, 1921 No. 1

Readers of the Record will remember that during the campaign last year the mailing list was greatly extended to include the names of all former students of the University, Ladies' College and Academy. How addresses could be obtained. To continue sending the Record to this very large number—over four thousand—would entail a very considerable expenditure of University funds which are not available for that purpose.

We are therefore, for this issue, sending the Record to all and if you have not already subscribed will you do so at once if you wish us to continue to send the Record to you. The subscription price is twenty-five cents per year. You can tell whether your subscription is paid by date reference to the date on your address on the wrapper. After this issue the names of those who have not subscribed will be dropped from the mailing.

NEW GYMNASIUM

Since our last issue in May a new gymnasium has been erected to replace the old one, built from Lingley Hall, which was destroyed by fire last winter. The site occupied is at the west end of the football field in the same place occupied by the former building. The pressing need for accommodation for basket-ball practice, for the Ladies' College gymnasium classes, etc., etc., led the Board of Regents to build what was considered a temporary building. Its completion, however, shows it to be excellently suited to the needs and of a structure whose permanence is undoubted.

It has no basement other than a small one to provide accommodation for two hot air furnaces. It is built of wood, placed on a firm foundation, and is in size slightly larger than the old gymnasium.

Entering the front door, on the right steps lead to a gallery about twenty feet in width running across the front end of the building. Below this gallery is an office, a store-room for the officers Training Corps, and two large dressing rooms. The main floor is eighty feet long and fifty wide giving ample surface for basket-ball. In addition a tennis court is marked on the floor. The height from the floor to the trusses, which are visible, is eighteen feet.

The gymnasium is finished throughout in Douglas Fir stained with a light stain to a height of ten feet and for the remainder painted almost white in color. The
