lieve all the advantages of the small college could be preserved and the great advantages of the big university attained.

American universities are often cursed by a passion for over-organization. The builders of the Maritime Provinces University would do well to keep their minds upon the simplicity of organization in the ancient universities of England.

Sincerely,

FRANK P. DAY,

Director of the Division of General Studies, Carnegie Institute of Technology.

Mrs. Mary E. Wood

Mrs. Wood was formerly Miss Mary A. Morton. The following is a copy of a letter received from her:

"My years at Mount Allison were long, long ago—1888-89-90. They were very happy years and I often look back on them now with mingled pleasure and sorrow, as I think of all the dear friends and schoolmates, many of whom have passed away. I moved with my children to the States sixteen years ago. I am a widow and have six children. The eldest is married to Arthur F. Borden and is now living in Middleton, N. S. The others are married and live near me, except the two youngest, who are with me at home. I have been disappointed that none of my children could attend Mount Allison, as I had hoped, but there is certainly every advantage there for a good education. My rela-
tives, who have been students at Mount Allison, are too numerous to mention.—my brothers, one of whom is still living, my sister, who left us many years ago, also nephews and nieces and cousins. I hope, in a few years, to have some of my grandchildren there, although I may then be among those who have passed away. With best wishes for Mount Allison and everybody and everything connected with it."

Mrs. W. E. Redding

Mrs. Redding, who was Margaret McLellan, entered the Ladies' College in 1867, remaining one year and a half. In 1869 she was married to W. A. Redding, merchant, of Colchester County, N. S. Mrs. Redding was the seventh woman to enter the mining town, which in eight months grew to be a town of 8000 people. Her husband was a merchant and postmaster there for a long time. They now live in a beautiful valley in Nevada, still in the mercantile business. In August, 1919, they celebrated their golden wedding when all of their children, one daughter and five sons and their families, were with them. Minnie Gordon Cogswell

The following is a copy of a letter which we have received from Miss Cogswell:

"The years are many and the years are long since I left Mount Allison as a student, thinking with the cocksureness of youth that life would be one grand, sweet song. (For the past seventeen years the song seems to have been "Yankee Doodle"). My two brothers and sister antidated me in attendance at Mount Allison, my years being from 1871 to 1875. The teachers to whom I owe the most and hold in affectionate remembrance are Miss Clusby, now Mrs. Betts, and the late Mrs. Archibald, whose gracious womanhood firmly impressed itself on my untutored mind. On leaving school I was occupied with Church work, and the small doings of a small town, till with a reverse of fortune, I took up the pencil to keep the wolf at bay. Have been a correspondent for Saskville, Halifax, and St. John newspapers, have had a few stories published, but am not now doing any writing. I came to Boston in 1905, my sister being married and settled in New Hampshire, but I trust to end my days in Canada. I have no politics,—my fate is Egyptian archaeology, and in religion I am an Episcopalian with a strong leaning toward Christianity. There are many fine schools in this country, but I know of none that has graduated more fine men and women, one rata, than the Saskville institutions."
